DETAILED ACTION

Response to Amendment

1. The Preliminary Amendment filed with the Application Serial No. 09/632,388 on 8/3/00 is acceptable however, claims 3, 5, and 8-13, as originally filed with the instant specification contain what appears to be markings directed to an amendment that was never formally entered. Accordingly, the instant Office Action will be based solely on what has been formally, originally, and correctly submitted before the U.S. Patent & Trademark Office.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, drawn to a semiconductor structure, classified in class 257, subclass 637.
 - II. Claims 11-19, drawn to a method for forming a semiconductor structure, classified in class 438, subclass 631
- The inventions are distinct, each from the other because of the following reasons:

3. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the process as claimed in the invention of Group II can be used to make a semiconductor device with only one planarized layer of PETEOS material and cannot be used to form a second layer of PETEOS material over a previously formed planarized layer of PETEOS material.

• Art Unit: 2823

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
